

Whale[®] Portable Solutions

Plumbing Systems & Portable Sanitation

QUICK CONNECT PLUMBING & ACCESSORIES

Save time and money by using Whale Quick Connect. Fittings and pipework design ensures easy installation and re-usability of components. The simple two step installation procedure does not require special tools to make a watertight connection.

PUMPS FOR FLUSH, WASTE MANAGEMENT AND HAND WASH

Our pumps are designed to fit easily into a variety of portable/mobile applications. Whale pumps are built to last in harsh environments, and to handle debris with ease. Today's wide range of models include hand and foot manually operated models as well as a range of high output, low voltage electric pumps.

BESPOKE FAUCETS

Whale's compact and reliable faucet ranges includes telescopic models and spigots designed specifically for portable sanitation installations.

WASHDOWN

Whale's pump offering extends to include handy options for easy washdown of portable sanitation units. Low voltage portable pump kits with adjustable triggers are the perfect solution for high pressure spray down.

SPARE PARTS

Whale's high quality product range is designed with ease of serviceability in mind, and is backed up with a complete range of spares kits.

QUICK CONNECT PLUMBING

KEY BENEFITS:

- Unique 'Double Gripper' provides secure lifelong tube retention even at excessive pressures.
- O-ring seal is held in position and does not distort or leak under pressure.
- High integrity single piece moulding improves the reliability and strength of fittings.
- Unlike competition, no collet clips are used thus the Whale system reduces costs and speeds up installation time.
